Extra-curricular Activities Classification

Yu Wang

Ryerson University

July 13, 2018

The purpose of the task is to classify user-supplied descriptions of extra-curricular activities quantitatively.

1. File *read_extra_curricular.txt* contains user-supplied descriptions. File *classify_extra_curricular.csv* contains the classification spreadsheet.

2. Classify the extra-curricular descriptions based on the following dimensions:

   - *Greek*: Any Greek life (membership in societies with names consisting only greek letters.)

   - *Community/Volunteer*: Any volunteering services or community work.

   - *Athletic/Varsity*: Any sports achievements or membership.

   - *Student Societies*: Any activities in student government, organizations, societies, student-run journals, or any other university campus activities.

   - *Military*: Any military service.

   - *Overseas*: Any overseas experience (study, work, internship, exchange, etc)

   - *Legal Internship*: Any internship or summer work experience related to legal work, paralegal work, courts, or politics.

- *Non-Legal Internship*: Any non-legal internship/summer work.

- *Legal Work Experience*: Any full-time work experience related to legal work, paralegal work, courts, or politics.

- *Non-Legal Work Experience*: Any full-time non-legal work experience.

- *Strong Letters*: Any good letters.

- *Leadership*: Any leadership responsibilities in any categories above.

3. If the user has mentioned certain experience, fill *1* to the spreadsheet. Otherwise, leave it blank.
